

Bill Validates King Harbor Bonds

By CHARLES CHAPEL
Assemblyman, 46th District
Several weeks ago, the Honorable Frank Lanterman, Republican member of the Assembly from La Canada, introduced a bill which became a law as an emergency measure to validate bond issues all over California, including boat-harbor bond issues. All the outstanding lawyers assumed it included the bonds issued by the local harbor district for the Redondo Beach Harbor, but eventually it was discovered that Redondo Beach Harbor was not covered by the Lanterman law.

For this reason, I introduced my own Assembly Bill No. 1615, as an emergency measure. With the help of leaders of both political parties and all members of the Assembly and the State Senate, the bill passed through the Assembly in two days, and passed through the Senate in one day. On Tuesday, March 19th, at 4:30 p.m., Governor Edmond

G. Brown, signed the bill and deposited it with the Secretary of State, the Honorable Frank M. Jordan.

THEREFORE, the law became effective and the Redondo Beach Harbor Bonds were validated. The day and hour are important to Redondo Beach because of the emergency facing the harbor, otherwise I would not bother to report what might appear to be petty details.

The bonds are self-liquidating, revenue bonds and are not bonds which result in taxation. Although the procedure related above seems simple, it required many days of personal attention. This explains why I have not yet caught up with all my mail from people who want to impeach Earl Warren, exercise dogs in state parks, and make it a felony to wear colored glasses while driving a car.

MY ASSEMBLY Bill 393 provides that if applicants for a marriage license are 65 or over, and neither desire pre-nuptial to obtain one, but if either one desires such examination, then both must be examined and file a certificate of examination with the license application. This bill passed the Assembly without opposition and is assigned to the Senate Committee on Public Health and Safety, the chairman of which is Senator Walter W. Stein of Bakersfield.

The State Department of Public Health supports the bill. The Legislative Counsel has promulgated an Official Opinion to the effect that this bill does not violate or offend the religious principles of those who are opposed to compulsory blood tests. I expect the bill to be passed by the Senate and signed by the governor.

MY ASSEMBLY Bill No. 153, revises procedure for election of trustees of library districts in unincorporated areas and provides for the consolidation of library district elections in even-numbered years with the direct primary ballot. The bill was proposed by the League of Women Voters of the South Bay Peninsula area and other organizations. It passed the Assembly without opposition.

passed to the Senate and probably will become a law within a reasonable time.

THE SOUTH Coast Botanic Garden Foundation, Inc., whose president is Mrs. Francis Young of Hermosa Beach, created a botanic garden out of what was originally a trash dump. The Los Angeles County Board of Supervisors, especially Supervisor Burton Chace, has provided money and guidance to further this worthy project.

At the request of Mrs. Young and many citizens of

the 46th Assembly District, I introduced my A.B. 2080. If enacted into law, it will establish a new agricultural district to include the South Coast Botanic Garden and obtain part of the state's revenue from horse racing to construct and operate a building for the growing and continuous display of live flowers and plants. If you have any questions about details please write to Mrs. Francis Young, 1037 Second St., Hermosa Beach, enclosing a stamped self-addressed envelope if you want a reply.

Riviera Club For Seniors Meets Friday

President Avis Fay will welcome all members and friends at the first meeting of the newly formed Riviera Senior Citizens Club scheduled tomorrow at 12:30 p.m. in El Retiro Park recreation building.

A discussion of business and social activities is planned, along with the results of the hobbies and transportation survey that was taken at the charter meeting.

An official count of 90 members was recorded at that time. There are now over 100 members. Homestowns across the nation are represented by 26 states and foreign countries of Belgium, Italy, Ireland and Canada.

Refreshments will be served after the meeting and card games will be organized.

For further details phone Mrs. John Decker at FR 8-4148.

EVERY ONE WHO WOULD KNOW GOD

needs this book

In these troublesome days thinking men and women recognize that it is only through a knowledge of God that they can find peace and a sense of stability.

Through the study of Science and Health with Key to the Scriptures by Mary Baker Eddy many thousands have found that God is knowable; that He is unchanging divine Love—the protodur and governor of His perfect creation.

Science and Health may be read or examined, together with the Bible, at any Christian Science Reading Room. Or it may be purchased at \$3.

Accidents High on Saturdays

Statistics show that accidents are more frequent on Saturdays than any other day, and more of them occur between 4 and 6 p.m. than during any other two-hour period.

"Statistics show something else, however," said California Highway Patrol Commissioner Bradford M. Crittenden. "Traffic accidents don't occur on a time schedule. During any hour, any day, any week or any month, people are killed or injured in traffic accidents."

"Your safety isn't measured by the clock, it is measured by your actions. A violation at 9 a.m. can be as hazardous as one at 5 p.m. Carelessness on Tuesday holds the same accident-causing potential as carelessness any day."

"Statistics tell the impersonal story of drivers as a group. Your personal safety depends on your individual actions," the commissioner said.

Money never made a man happy yet, nor will it. There is nothing in its nature to produce happiness. The more a man has, the more he wants.—Benjamin Franklin

NEW OWNERSHIP SALE!

You are cordially invited to come in and look around. You'll find surprise displays of extra bargains throughout the store. We are gradually improving and renovating to make your shopping easier and convenient. You'll find special first of the week surprises too! You can rely on pleasant and courteous service plus quality and low money-saving bargains while shopping at ROY'S MARKET.

Tormenting Rectal Itch Stopped In Minutes

Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special) — One of the most common afflictions is a condition known as "itching piles." It is most embarrassing for the victim during the day and especially aggravating at night.

No matter what you've used without results — here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids — without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection.

In one hemorrhoid case after another "very striking improve-

ment" was reported and verified by a doctor's observations. This improvement was maintained in cases where a doctor's observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.

The secret is this new healing substance (Bio-Dyne®) — discovery of a world-famous research institution. This substance is now obtainable in ointment or suppository form known as Preparation H®. Ask for Preparation H Suppositories (convenient to carry if away from home) or Preparation H Ointment with special applicator. Available at all drug counters.
